
a
Random input and response
Neural response, y
Weighted social input, S
A = 0.114
A = 0.228
A = 0.456
b
Held-out response predictions
Held-out prediction
Observed neural response, y
Amplitude A
Weighted input S
c
Seed-level test errors
Test MSE: weighted input S
Test MSE: amplitude A
Equal test errors
20 held-out seeds
d
Overall prediction error
Test RMSE
0.206
0.173
Amplitude A
Weighted input S
Response model
95% bootstrap interval
